Presentation...

The Maria Luisa Memorial is calling, one more time, photographers and filmmakers, both amateurs and professionals, to the thirty third edition of their contest. We start a new decade and we do it with the same initial purpose of trying to meet new, innovative and suggestive images that allow us to continue with the promotion of the artistic work of the work of the contestants, at the same time as with the diffusion of the natural environment and its necessary protection.

Mountain, nature, wildlife, mountaineering, climbing, landscape, underwater world, biodiversity, flora, extreme and adventure sports, etc. will be the reference of the edition in this contest one more year, not only in the photography categories but in the section dedicated to videos, films and documentaries as well. In addition, on this occasion, a new thematic category dedicated exclusively to photographs and videos made within the African continent.

Year after year photographers from all over the world take part in this contest, having done it already from more than 100 different countries. With the passing of the years the contest has become a meeting place not only for widely recognized international photographers, but also for undiscovered talent and new photographers.

With the rules, instructions and advice provided you will easily be able to prepare your photographs and/or videos to compete in a contest that lacks any commercial purpose, and in which, as usual, only you and your work will be the true protagonists.

One more time, good luck to everyone and good light.

PROJECTIONS AND PRIZE-GIVING

The gala of the prizes will take place in Infiesto and in Oviedo – Asturias, on 5th and 6th May 2023, in the place and hour that to the effect will be indicated by the Organization. This will provide accommodation free of charge to the winner and accompanying person, in order to facilitate their attendance to such acts. The other acts parallel to the same as exhibition, projections, etc, will take place the days before that date and the following day.

OTHER CONSIDERATIONS

Developing the photographs, the typical adjustments of digital developing (white balance, exposure, levels, contrast, colour saturation, focusing, vignetting removal...) will be admitted; also the cleaning of particles, and slight cuttings. Alterations or manipulations of the image or even of part/s of the image, which imply that the photograph shows a different reality from the photographed reality, will not be admitted.

The authors of short-listed photographs may be asked to provide such clarification regarding the image as may be deemed fitting. The technical committee may reject those photographs which do not comply with the present rules, subjects and categories. Also, and in any case, entrants will be asked to provide the camera primary files (RAW). Not providing such files implies the disqualification of the photograph.

The Organization reserves the right to make copies of all award-winning photographs as may be required for exhibitions, projections or publications related exclusively to the activities of the present competition, without limits in time, geographic location or mediums, and always crediting the authorship of said photographs. As it sees fit, the Organization may request a copy of
the original file with maximum quality and size. Without prejudice to the above, the authors of the photographs will retain all legal rights to the same for any future use.

...The films admitted to the contest will become part of the historical archive of the Contest, and may be reproduced in whole or in part, and in any media, for the diffusion and promotion thereof. For other types of projections, the authorization of the author will be asked for previously.

The Organization of the competition will refuse any request that may be received from third parties with commercial interests, such as the concession, loan, exploitation, sale etc. of the personal details of participants and of the images submitted by them for the purposes of the competition. If we had knowledge of the existence of a claim to purchase an image or its rights, the organization would directly put in touch the author of the photograph with the person who showed interest, so that they can make a convenient deal.

The participant must be the sole owner of the rights to the photographs and/or videos, as well as of all the elements that compose these: images, music and other intellectual property, and will accept full responsibility for assuring that no third party rights to the Works submitted for any such third party as may arise, disclaiming any liability to the Contest.

Participants entering the section for Young Photographers may be required to provide documental proof of their age.

The digital material submitted will not be returned as the CDs/DVDs will be destroyed at the conclusion of the competition.

The personal data provided by the contestants will be treated in accordance with the provisions of Organic Law 15/1999, of December 13th, on the Protection of Personal Data, and they may exercise their rights of access, rectification and cancellation.

The act of participation in the competition implies acceptance of the present rules in their entirety. The Organization reserves the right to decide on any case not contemplated in these rules.
INSTRUCTIONS AND ADVICE

The MML-Photo is a mountain, nature and adventure photographic and video competition with no commercial interests and a non-profit organization. The rules by which the same is governed have the backing and recommendation of AEFONA – The Spanish Association of Nature Photographers.

Participation in the competition is open equally to any photographer or filmmaker, be amateur or professional, with no limit whatsoever to their geographical origins. The participation fee must be always paid by credit card, or PayPal, via on-line from the website of the Contest. All contestants may submit a photo to the contest for free.

In addition to the two absolute prizes, worth €3,000 each, one prize for each of the fourteen categories that make up the contest will be awarded, as well as several honorable mentions.

Submissions will preferably be made online via the competition website www.memorialmanrialuisa.com or alternatively through the media of CD or DVD or other similar hardware. Under no circumstances must the two options be used simultaneously. Leaving submissions to the final days (December 1st, 2022) is not recommended, as during these days the system is usually much more saturated.

From the same Website it is also possible to reserve the book portfolio for the XXXIII MML Edition.

Read the rules. Prepare and adequately distribute the photos within the eleven theme categories before uploading them online. Bear in mind that a photograph which does not fit with the theme of the category in which it is entered could be rejected by the competition technical management. The jury can transfer images from one category to another in order to enhance its value.

On-line submission of the photos and/or videos is very simple. It consists of two stages: A/ the registry of the competitors details and, where appropriate, payment of participation rights. B/ submission of the photos and, where appropriate, the data and link for downloading the videos. Once registered you will have a password via which you may subsequently access the system.
Each competitor will have to provide the organization with a valid email address, given that all notifications are made through that medium. We will always contact you from e-mail accounts: certamen@memorialmarialuisa.com, concurso@memorialmarialuisa.com and mml-photo@memorialmarialuisa.com. It is very important that you add them to your contact list to avoid potential blockage and rejections from antispam systems.

Do not forget to use the button “finish participation” within the application as soon as you finish uploading all the photographs and/or videos you wish to enter. Before the closing date you will be able to upload photos and/or videos at any moment, up to a maximum of five for each of the themed categories (5x14) and/or three videos.

Save the native camera file (original RAW or JPG) as it may be required by the technical management or jury for the exhibition in order to be compared with the participating file. To this end DNG files will also be permitted as long as they have been those used by the camera to register the image origin.

No manipulation or touching up may be used in the editing of photos apart from those permitted, given that otherwise the photograph may be rejected.

Multiple exposures will be permitted, as long as they have been registered on the camera in a single primary file. The use of HDR is permitted. Also, panoramic photos are admitted, as well as the Stitching and Stacking techniques, provided that the photos have been taken at the same location and consecutively.

Equally images converted to grey scale (B and W) and sepia toning will be permitted. Images with selective conversions of parts of the same will not be permitted.

Images of animals in captivity, models or pets will not be admitted, nor those of houseplants.

Use tools for white balance, colour saturation, contrast, focus, etc. with moderation... The elimination of a vignette is permitted.

Do not compress the photographs using Zip, Rar, Sitx or similar. Avoid using borders, frames, signatures, watermarks, etc.

Add a comment to the photo and explain the techniques employed in its creation. Give a geographical location. This field in the application does not have a limit for the number of words or characters. The EXIF metadata of the camera must be kept on the file.

There are no restrictions regarding the date of taking the photographs and/or videos.

Bear in mind when choosing the photos to enter that the jury will always look for images with meritorious composition representing a single action which have been taken with due technique and produce a notable visual
impact. Participate with new and original images, and avoid those that are already well known.

The MML will ask authors of the videos, films or documentaries that pass to the final phase of the competition for a copy, in high resolution, preferably to 1920 x 1080 or higher. In its case they will also facilitate the file with the subtitles, preferably in format .srt, as well as promotional material.

We hope that the images in this competition represent the fascinating beauty of the mountain and nature, that they evoke feelings, emotions and admiration in the spectator, which will only happen when they are certain of their authenticity.
